

MARTIN JORRELL H. GASPAR

Web Developer | QA Tester | Data Annotator

Balagtas, Bulacan, Philippines • 09053778875 • martinjorrellgaspar@gmail.com • linkedin.com/in/[add-your-handle]

PROFESSIONAL SUMMARY

Detail-oriented BS Industrial Technology graduate (Cum Laude, Major in Computer) with hands-on experience in web development, manual and automated QA testing (Selenium, Cypress, Playwright), and data labeling for machine learning research. Comfortable working across the full build-test-deploy cycle and known for accuracy, attention to detail, and delivering results on lean budgets.

CORE SKILLS

Web Development: HTML, CSS, JavaScript, PHP, Java, Python, C++, UI/UX Design, Database Management, EmailJS Integration, Hostinger Deployment, Cloudflare DNS

QA Testing: Manual Testing, Automated Testing, Selenium, Cypress, Playwright, Test Case Design, Bug Tracking & Reporting, GitHub, Excel/Google Sheets Reporting

Data Annotation: Gesture/Image Data Labeling, Dataset Preparation, Data Quality Control, Pattern Recognition, Attention to Detail

EXPERIENCE

Web Developer — Panrama Technologies

- Designed and developed business websites (panramatechnologies.com, guanzonpool.com), including promotional banners and offer pages
- Integrated EmailJS for contact forms, removing the need for paid backend email services and keeping project costs minimal

System Developer — Momocart: Mobility Carts

- Built a time in/time out logbook system (momocartlogbook.com) using Java, HTML, CSS, and PHP
- Deployed on Hostinger and configured Cloudflare DNS to prevent IP blocking and service interruptions

QA Testing Intern — Blueshirt Works PH

- Wrote and maintained Cypress automation scripts to verify application functionality
- Performed manual testing and debugging, logging and reporting results via Google Sheets, Excel, and GitHub

RESEARCH & ACHIEVEMENTS

Lead Researcher & Publisher — Best Research Award, Bulacan State University

- Co-developed a real-time Filipino Sign Language recognition system converting hand gestures to text-to-speech output
- Labeled and curated gesture image datasets used to train and validate the recognition model

EDUCATION

Bulacan State University — BS Industrial Technology, Major in Computer

Cum Laude • Dean's Lister • Best in Research • Best Presenter

Dr. Yanga's Colleges — Information and Communication Technology

With Honors • Best in Research
